## No. 1—January

PAGE

ROGERS, G. T., RAWLINS, G. A. AND BAGSHAWE, K. D.—Somatic-cell hybrids producing antibodies against CEA . . . . . 1

ZAUNDERS, J., WERKMEISTER, J., MCCARTHY, W. H. AND HERSEY, P.—Characterization of antigens recognized by natural killer cells in cell-culture supernatants . . . . . 5

KHARE, A. G., ADVANI, S. H. AND GANGAL, S. G.—*In vitro* generation of lymphocytoxicity to autochthonous leukaemic cells in chronic myeloid leukaemia 13

GORCZYNSKI, R. M. AND MACRAE, S.—Inhibition of cell proliferation rather than of cell lysis as a measure of immune reactivity in embryo-antigen-challenged mice . . . . . 19

GORCZYNSKI, R. M. AND MACRAE, S.—Tumour-cell susceptibility to cytotoxic or cytostatic effector cells *in vitro* and the regulation of tumour-cell growth *in vivo* 32

EMBLETON, M. J. AND MIDDLE, J. G.—Immune responses to naturally occurring rat sarcomas . . . . . 44

DAVIES, G., DUKE, D., GRANT, A. G., KELLY, S. A. AND HERMON-TAYLOR, J.—Growth of human digestive-tumour xenografts in athymic nude rats . 53

LEAKE, R. E., LAING, L., CALMAN, K. C., MACBETH, F. R., CRAWFORD, D. AND SMITH, D. C.—Oestrogen-receptor status and endocrine therapy of breast cancer: Response rates and status stability . . . . . 59

LEAKE, R. E., LAING, L., MCARDLE, C. AND SMITH, D. C.—Soluble and nuclear oestrogen receptor status in human breast cancer in relation to prognosis 67

PIKE, M. C., HENDERSON, B. E., CASAGRANDE, J. T., ROSARIO, I. AND GRAY, G. E.—Oral contraception use and early abortion as risk factors for breast cancer in young women . . . . . 72

RUSHTON, L. AND ALDERSON, M. R.—A case-control study to investigate the association between exposure to benzene and deaths from leukaemia in oil refinery workers . . . . . 77

OLIVE, P. L.—Different sensitivity to cytotoxic agents of internal and external cells of spheroids composed of thioguanine-resistant and sensitive cells. 85

MULCAHY, R. T., SIEMANN, D. W. AND SUTHERLAND, R. M.—*In vivo* response of KHT sarcomas to combination chemotherapy with radiosensitizers and BCNU . . . . . 93

DELAINI, F., GIAVAZZI, R., DE BELLIS VITTI, G., ALLESSANDRI, G., MANTOVANI, A. AND DONATI, M. B.—Tumour sublines with different metastatic capacity induce similar blood coagulation changes in the host . . . . . 100

*Short Communications*

SIKORA, K. AND PHILLIPS, J.—Human monoclonal antibodies to glioma cells . 105

CAUCHI, M. N., LIM, D. AND GIDDY, M.—Immunological characterization of endocervical mucus in normal and neoplastic tissue . . . . . 108

MEYSKENS, F. L. AND SALMON, S. E.—Modulation of clonogenic human melanoma cells by follicle-stimulating hormone, melatonin and nerve growth factor 111

SZUMIEL, I., NIEPOKOJCZYCKA, E. AND GODLEWSKA, E.—Growth *in vivo* of L5178Y-R murine leukaemic cells treated *in vitro* with *cis*-dichloro-bis (cyclopentylamine) platinum II . . . . . 116

WILDRIDGE, M. AND SHERBET, G. V.—Possible surface protein markers for breast cancer . . . . . 118

MEETING ANNOUNCEMENT . . . . . 122

## No. 2—February

PAGE

BAILEY, M. J., ORMEROD, M. G., IMRIE, S. F., HUMPHREYS, J., ROBERTS, J. D. B., GAZET, J.-C. AND NEVILLE, A. M.—Comparative functional histopathology of human breast carcinoma xenografts . . . . . 125

RØMER, F. K.—Angiotensin-converting enzyme and its association with outcome in lung cancer . . . . . 135

SELBY, P. J. AND STEEL, G. G.—Clonogenic cell survival in cryopreserved human tumour cells . . . . . 143

SPITZER, G., VERMA, D. S., BERAN, M., ZANDER, A. R., DICKE, K. A., MCCREDIE, K. B., SIEGEL S. AND TINDLE, S.—Human myeloid leukaemic cell interactions *in vitro* with normal myeloid colonies . . . . . 149

TAYLOR, G. M.—*In vitro* stimulation of cell-mediated cytotoxicity by acute leukaemias . . . . . 157

HARDELL, L., ERIKSSON, M., LENNER, P. AND LUNDGREN, E.—Malignant lymphoma and exposure to chemicals, especially organic solvents, chlorophenols and phenoxy acids: A case-control study . . . . . 169

HERITY, B., MORIARTY, M., BOURKE, G. J. AND DALY, L.—A case-control study of head and neck cancer in the Republic of Ireland . . . . . 177

GAO, Y. T., TU, J. T., JIN, F. AND GAO, R. N.—Cancer mortality in Shanghai during the period 1963–77 . . . . . 183

RUSSO, M., GIANCANE, R., APICE, G. AND GALANTI, B.—Adenosine deaminase and purine nucleoside phosphorylase activities in peripheral lymphocytes from patients with solid tumours . . . . . 196

VERLOES, R., ATASSI, G., DUMONT, P. AND KANAREK, L.—Successful immunotherapy with Micrococcus, BCG or related polysaccharides on L1210 leukaemia after BCNU chemotherapy . . . . . 201

MANIL, L., VAN CANTFORT, J., LAPIÈRE, C. M. AND GIELEN, J. E.—Significant variation in mouse-skin aryl hydrocarbon hydroxylase inducibility as a function of the hair growth cycle . . . . . 210

*Short Communications*

DADY, P. J., POWLES, T. J., DOWSETT, M., EASTY, G., WILLIAMS, J. AND NEVILLE, A. M.—*In vitro* osteolytic activity of human breast carcinoma tissue and prognosis . . . . . 222

SIZARET, P., CLERC, M., ESTÈVE, J., FRANTS, R. R. AND PILLOT, J.—M2 alpha-1-antitrypsin phenotype and primary liver cancer . . . . . 226

BYERS, P. D., SISSONS, H. A., PRICE, C. H. G., BALL, J., CATTO, M., HARDY, G. J., MEACHIM, G., TOMLINSON, B. E., WOODS, C. G. AND SANERKIN, N. G.—A study of histological features distinguishing chordoma from chondrosarcoma 229

ROSS, R. K., DEAPEN, D. M., CASAGRANDE, J. T., PAGANINI-HILL, A. AND HENDERSON, B. E.—A cohort study of mortality from cancer of the prostrate in Catholic priests . . . . . 233

STAVRAKY, K. M., CLARKE, E. A. AND DONNER, A.—A case-control study of hair-dye use and cancers of various sites . . . . . 236

CLAISSE, P. J. AND ROSCOE, J. P.—Different response of ENU-exposed and unexposed rat brain cells to cholera toxin at early passages in culture . . 240

TANNOCK, I. AND GUTTMAN, P.—Response of Chinese hamster ovary cells to anticancer drugs under aerobic and hypoxic conditions . . . . . 245

BOOK REVIEWS . . . . . 249

MEETING ANNOUNCEMENTS . . . . . 252

## No. 3—March

PAGE

CARINI, C., HUDSPITH, B. N. AND BROSTOFF, J.—Effect of prostaglandins and cyclic nucleotides on growth and immunoglobin secretion of two IgE myeloma cell lines . . . . . 257

SETHI, J. K. AND HIRSHAUT, Y.—Characterization of human sarcoma antigen $S_3$ 261

WOLF, A., MICKSCHE, M. AND BAUER, H.—An improved antigenic marker of human lung carcinomas and its use in radioimmunoassays . . . . 267

GUY, K., DI MARIO, U., IRVINE, W. J., HUNTER, A. M., HADLEY, A. AND HORNE, N. W.— Circulating immune complexes and autoantibodies in lung cancer 276

BECKER, S. AND HASKILL, S.—*In vitro* demonstration of *in situ* autologous tumour-cell cytotoxicity in MSV-induced tumours in A/Sn mice . . . . . 284

JAMES, K., DAVIS, S. AND MERRIMAN, J.—Immunological and biochemical characteristics of acid citrate eluates from tumour cells: A major non-immunoglobulin component . . . . . 294

WHITMARSH-EVERISS, T. AND SYMES, M. O.—The presence of a tumour in $F_1$ mice partially inhibits the GvH reaction following injection of parental spleen cells . . . . . 305

VEZZONI, P., CAMPAGNARI, F., DI FRONZO, G. AND CLERICI, L.—Terminal deoxynucleotidyl transferase in human lymphomas: Possible existence of forms with high and low molecular weights . . . . . 312

LILLEYMAN, J. S. AND SUGDEN, P. J.—T lymphoblastic leukaemia and the central nervous system . . . . . 320

BIRCH, J. M., SWINDELL, R., MARSDEN, H. B. AND MORRIS JONES, P. H.—Childhood leukaemia in North West England 1954–1977: Epidemiology, incidence and survival . . . . . 324

ALBERTS, D. S., CHEN, H.-S. G., BENZ, D. AND MASON, N. L.—Effect of renal dysfunction in dogs on the disposition and marrow toxicity of melphalan . 330

CURRIE, G. A.—Platelet-derived growth-factor requirements for *in vitro* proliferation of normal and malignant mesenchymal cells . . . . . 335

DISCHE, S., SAUNDERS, M. I., RILEY, P. J., HAUCK, J., BENNETT, M. H., STRATFORD, M. R. L. AND MINCHINTON, A. I.—The concentration of desmethylmisonidazole in human tumours and in cerebrospinal fluid . . . . 344

MAHOOD, J. S. AND WILLSON, R. L.—Cytotoxicity of metronidazole (Flagyl) and misonidazole (Ro-07-0582): Enhancement by lactate . . . . . 350

PETTERSEN, E. O. AND LINDMO, T.—Low concentrations of misonidazole counteract effects of extreme hypoxia on cells in S . . . . . 355

SIEMANN, D. W.—*In vivo* combination of misonidazole and the chemotherapeutic agent CCNU . . . . . 367

ROIZIN-TOWLE, L.—Studies with *cis*-diamminedichloro-platinum II and exogenous polyamines using mammalian cells in culture . . . . . 378

MORGAN, J. E. AND BLEEHEN, N. M.—Response of EMT6 multicellular tumour spheroids to hyperthermia and cytotoxic drugs . . . . . 384

TSAO, S. W., BURMAN, J. F., EASTY, D. M., EASTY, G. C. AND CARTER, R. L.—Some mechanisms of local bone destruction by squamous carcinomas of the head and neck . . . . . 392

GREAVES, P. AND FACCINI, J. M.—Spontaneous fibrous histiocytic neoplasms in rats . . . . . 402

BOOK REVIEW . . . . . 412

MEETING ANNOUNCEMENTS . . . . . 413
